

Studio 205
At BCA since 1997

The Art Connection is the only nonprofit in the Boston metro area that enriches and empowers underserved communities by providing access to original works of visual art. We use art as a catalyst in Boston to amplify connections between communities, nonprofit agencies, and artists. We curate participatory art experiences at Boston galleries and within nonprofit agencies. We use art as the entry point for inspiring new conversations between artists and citizens. And we host immersive art-making workshop with nonprofit agencies.

Below are additional details about The Art Connection's two main programs which provide unique art offerings to nonprofit organizations:

- [Art Placement Program](#)

The Art Connection catalogs original artwork by artists and collectors interested in donating their art to recipient nonprofit agencies. We provide original works of art to transform and beautify their office space. [Check out an overview of this program in our infographic here](#)

- [Artful Seeds Workshops](#)

These interactive workshops provide a custom art making experience for the people served at nonprofit agencies or can be a team building experience for their staff.
