

Action Kits

January 23 – April 5, 2015 | Curated by Matt

ACTION KITS is an exhibition of new interactive artworks by five artists. Each of these works takes the form of a *kit* – a coordinated set of things that have been assembled to be experienced by visitors to the exhibition.

To create these interactive systems, five South End-area professionals have been paired with five artists. Each professional was asked the same five questions about their personal working methodologies and problem-solving philosophies. Their answers have been translated by their paired artist into an interactive kit. The completed *ACTION KITS* will be on exhibit in the gallery alongside the original questions and answers.
